2011/12 Quarterly Financial Report April to September 2011

CONTENTS

Introduction
Quarterly Financial Results

INTRODUCTION

Budget 2011 provided the financial overview of the Government Reporting Entity (GRE), which includes core government and Crown organizations, government business entities and public sector organizations such as regional health authorities, school divisions, universities and colleges. Manitoba's summary budget aligns with the accounting standards set by the Public Sector Accounting Board and fully reflects Generally Accepted Accounting Principles (GAAP). A summary budget presents a more complete picture of how the provincial government and the other related entities operate as a whole and what the total cost is of providing services and programs to people in Manitoba.

The financial information in this quarterly financial report is presented in the same format as the budget. The second quarter financial report presents information on the GRE for the six months ending September 30, 2011, as well as an updated financial forecast for the current fiscal year.

Given the significance of the wide spread flooding this year, an update on the related one-time costs for 2011/12 are being presented separately.

2011 SPRING FLOOD UPDATE

As noted at the end of the first quarter, unprecedented flooding in 2011 has resulted in significant unbudgeted expenditures for flood fighting, mitigation work and financial assistance programs that will affect the budgeted results for 2011/12. At the end of the second quarter, \$437 million has been expended on the spring flood.

While the projected costs of the disaster are \$815 million, the net impact of the flood effort is still reliant on the results of ongoing consultations with Canada respecting cost-sharing. Based on current cost projections, the provincial cost will be \$343 million. This includes the core government projection of \$181 million, after anticipated federal recoveries of \$472 million, and \$162 million reflected in Manitoba Agricultural Services

Corporation for support related to excess moisture and unseeded acres.

The forecast of unbudgeted expenditures for the 2011 spring flood includes funding for the Building and Recovery Action Plan and other financial assistance of \$483 million to support homeowners, businesses, First Nation communities and municipalities as well as \$332 million to support livestock and crop producers for AgriRecovery and excess moisture programs.

In addition, the projection for infrastructure expenditures is \$159 million, including the restoration of bridges, roads and dikes and the construction of the outlet channel to alleviate the pressure on Lake Manitoba and Lake St. Martin.

Year to Date Actual and Full Year Projection of 2011 Spring Flood

For the Fiscal Year Ending March 31, 2012
UNAUDITED

Expenditure (\$000s)	September 30 Actual	Full Year Projection
Flood Fighting	78,094	78,094
Mitigation, Restoration and Floodproofing	32,181	180,606
Financial Assistance Programs		
AgriRecovery	98,551	170,400
Lake Manitoba Financial Assistance (cottage, home, farm)	9,651	142,000
Hoop and Holler Compensation Program	2,348	10,700
Other Financial Assistance (municipal and individual)	51,624	67,300
Agri Insurance/ Excess Moisture	161,761	161,761
Property Tax Relief Program	3,049	4,000
Subtotal Financial Assistance Programs	326,984	556,161
Total Expenditure	437,259	814,861

**GOVERNMENT REPORTING ENTITY (GRE)
Excluding 2011 Spring Flood Costs**

The summary forecast for fiscal year 2011/12, net of flood related costs, is a summary net loss of \$646 million, a negative variance of \$211 million from the budgeted net loss of \$435 million.

At the end of the second quarter, core government revenue is forecast to be \$42 million lower than budget, primarily as a result of timing of federal transfers for infrastructure renewal and the floodway expansion.

Expenditures in core government are anticipated to be higher than budget primarily

due to pressures in the areas of supports for families (\$60 million) and public safety and corrections (\$33 million). The government continues to monitor these pressures and expenditure management initiatives are being implemented to address them.

Projections from other reporting entities indicate net income in the government business enterprises (GBEs) of \$63 million lower than budget.

Projection of Summary Net Income/(Loss)

For the Fiscal Year Ending March 31, 2012

NET INCOME (LOSS) PRIOR TO 2011 SPRING FLOOD	(614)	(32)	(646)	(461)	26	(435)	(211)

QUARTERLY FINANCIAL RESULTS

The unaudited net result of the Government Reporting Entity for the first six months of the fiscal year is \$539 million, \$98 million better than estimated, prior to the inclusion of the 2011 spring flood costs. The six month spring flood expenditures were \$25 million lower than projected as a result of timing.

The six-month revenue variance of \$76 million is due to receipts from the federal government for income taxes and other federal transfers received earlier than forecast, offset by lower than estimated results for the GBEs. The expenditure variance of \$22 million is primarily the result of timing.

Core government revenue and expenditure details are provided in Appendix I and II on pages 8 and 9.

Infrastructure and Capital Asset Renewal

Expenditures for infrastructure and capital asset renewal in 2011/12 are forecast to be \$1.7 billion to support continued economic growth and provide for the services Manitobans need in the future. The projects are supported by \$65 million in federal funding.

Based on principles of sound financial management, Manitoba has been able to increase the assets of the province while maintaining a manageable level of debt. Budget 2011 continues to provide the resources for upgrading Manitoba's roads and highways, wastewater treatment plants, health facilities across the province, building and restoring much needed social housing and modernizing our schools and post-secondary institutions.

As borrowings may be used to finance capital related projects, net debt may grow in absolute terms from time to time as needed investments in capital assets – like the Red River Floodway, highway infrastructure and economic stimulus investments – are made. It is therefore important to measure change in net debt against the growth of the economy. As a result of the decision to continue to invest in infrastructure projects to create jobs and stimulate the economy, an increase in the net debt to GDP ratio to 26.2% was projected in Budget 2011. For fiscal year 2011/12, summary net debt to GDP is currently forecast to be 25.8%.

At the end of the second quarter, \$310 million in core government capital investments have been made, with a projected investment of \$914 million by fiscal year-end.

Core government capital investment details are provided in Appendix III on page 10.

SPECIAL ACCOUNTS**Fiscal Stabilization**

The budgeted draw for 2011/12 includes health-related programming of \$25 million and \$8 million for requirements related to ecoTrust funds.

Manitoba's Five-Year Economic Plan incorporated a legislated requirement to dedicate at least \$600 million of the funds set aside in this Account to retire a portion of the debt and interest expense associated with the core government operating shortfalls during the economic recovery period. In 2011/12, \$110 million will be withdrawn for debt repayment as well as \$14 million for the interest expense associated with the core government operating shortfall.

Pension Assets

The trust conditions of the funds held in the Pension Asset Fund are irrevocably restricted for pension purposes only. As a result of this restriction, these funds are classified as pension assets and will be accounted for and reported in keeping with GAAP for senior governments.

The fund balance is projected to increase in 2011/12 as government continues to address the unfunded liability for the Civil Service Superannuation Fund and net investment earnings.

Net investment earnings include the expected rate of return during the year and adjustments to market related value. Under GAAP, market fluctuations of pension assets are not recorded in the year in which they occur but are recognized over the employee average remaining service life (EARSLS).

**PROVINCIAL BORROWINGS,
GUARANTEES AND OBLIGATIONS**

Manitoba's borrowing requirement identified in the 2011 Budget was \$3.8 billion including refinancing of \$2.0 billion and new cash requirements of \$2.7 billion, offset by prefunding of \$489 million and estimated repayments of \$412 million.

New cash requirements are necessary for general government purposes, capital investments by departments, health facilities, post-secondary institutions, Manitoba Hydro and for the funding of the unfunded pension liability for the Civil Service Superannuation Plan. Estimated repayments are primarily for general purpose borrowings and departmental capital investment.

At the end of the second quarter, Manitoba's borrowing requirement has been revised to \$4.5 billion. The revision is primarily for general purpose debt to fund the costs related to the significant flooding event pending timing of recoveries from the federal government.

The total of outstanding borrowings, guarantees and obligations reflect the province's gross borrowing obligations, but it does not take into consideration liquid assets available to pay down those obligations. The total of outstanding provincial borrowings fluctuates during the fiscal year as a result of the timing of borrowing activities of the province. The forecast for the year end is shown in the table on the following page.

Provincial Borrowings, Guarantees and Obligations

Notes: Provincial Borrowings, Guarantees and Obligations

1. Provincial borrowings, guarantees and obligations are net of sinking funds.
2. In 2011/12, the Government plans to allocate an additional \$240 million to address pension obligations for the civil service.
3. Provincial Borrowings and Guarantees are payable in Canadian and U.S. dollars. As at September 30, 2011, total provincial borrowings and guarantees are payable 92% in Canadian dollars and 8% in U.S. dollars. Of this total, General Government Program borrowings and Other Crown organizations borrowings are 100% payable in Canadian dollars. Manitoba Hydro borrowings are payable 78% in Canadian dollars (78% at March 31, 2011) and 22% in U.S. dollars (22% at March 31, 2011).

* The per capita data for 2011/12 is based upon population figures at July 1, 2011 and the March 31, 2011 per capita data is based upon population figures at July 1, 2010 as reported by Statistics Canada.
